

Prot. 075/MB/ff

Brussels, 14 November 2012

Dear Ms. Filippova,

It is with great pleasure that we confirm the participation of EFESME aisbl to the 6th International Exhibition Lift Expo Russia 2013 in Moscow.

Bearing in mind the importance of this fair for the elevator industry of Russia and the CIS, nonetheless we strongly believe that this also represents a great opportunity for the whole lift trade market movement.

The variety of the activities which will be the purpose of the exposition and the demonstration of new developments is an asset for this fair, as long as it allows the participation and the gathering of many different associations and enterprises from all over the world.

Thanks to the massive presence of leading industry experts, we consider this as a great opportunity for dialogue between different associations but also pooling and sharing from a technical and regulatory point of view.

Creation of synergies, mutual increase of economies, development of trade, production, and cooperative relations between our countries are among the benefits of the participation to this partnership. Therefore, we consider this relationship to be rewarding for our different associates and then for the business realities within our Federation.

We look forward to sharing our expertise with you,

Best regards,

Massimo Bezzi
EFESME Vice President
